|--------|---------------------|--------------|
| 製品名    | ガスカウンター             |              |
| 型式     | DX2-1560T-C         |              |
| 外形寸法   | 幅1500×奥行600×高さ300mm |              |
| ＜設置工事＞ |                     |              |
| ガス接続   | 20A                 |              |
| ＜製品仕様＞ |                     |              |
| ガス消費量  | 13Aガス 51.2kW        | 44,000kcal/h |
|        | LPガス 51.2kW         | 3.67kg/h     |
| 電気接続   | AC100V              | コンセント形状 (㊦)  |
| 電気消費量  | 8W                  |              |
| 重量     | 130 kg              |              |
| 安全装置   | 可燃ガス安全装置 (フレームロケット) |              |

Technical drawing of the front view of the device. The drawing shows a rectangular unit with a width of 600mm and a height of 400mm. The top edge has a 65mm overhang on the left and a 60mm overhang on the right. The bottom edge has a 140mm overhang on the left and a 70mm overhang on the right. The main body width is 475mm. The drawing includes a gas connection port (ガス接続口 20A) on the left side, a power cord (コード) on the right side, and a power cord length (コード長さ 2.5m) indicated. The drawing is labeled with dimensions and part numbers 13 and 14.
